Venue Area A, Canton Fair Complex
[382 Yuejiang Middle Road, Haizhu, Guangzhou, P. R. China]

Co-Located Show  CHINACOAT2018

SHOW INFORMATION

Since its inception in 1983, SFCHINA (The China International Exhibition for Surface Finishing & Coating Products) has been providing a unique platform for suppliers and manufacturers to connect with trade visitors particularly from China and Asia. The show has now grown to become a Leading Finishing Show and alternates its venue annually between Guangzhou and Shanghai, P. R. China.

SFCHINA not only offers wide range of products and services in the field of 'finishing', it also provides industry players with the opportunities to update themselves with the latest market trends and expand their networks. Its scope of exhibits includes substrate pretreatment, mechanical and chemical finishing processes, coating applications (include paints and powder coating), electroplating & electrophoretic processes and equipment, testing equipment, environmental protection to recycling technologies, etc.

Our last 2016 Guangzhou show finished with a total of 11,046 trade visitors from 44 countries/regions. A total of 275 exhibitors from 19 countries/regions exhibited on a gross exhibition area of over 14,000 sq.m. These results have proven SFCHINA is a key event for industry players from all around the world.

The 31st edition of SFCHINA will be staged again at the China Import and Export Fair Complex (Canton Fair Complex) in Guangzhou in 2018. For expansion purpose, the show will be moved from Area B to **Area A**. The exhibition halls in Area A are more spacious, some of them are without pillars, thus will be more suitable to hold large-scale exhibition.

SFCHINA2018 Shanghai is a fast lane to meet the Finishing community. Always check www.sfchina.net to learn more about the updated exhibiting info.

Preliminary Information
